

## Your Hospice Lottery/make a smile lottery canvassing code of practice

Our lottery complies with the highest standards in quality assurance, governance, and compliance guidelines. Furthermore, we only work with partner organisations that adhere to these standards also.

We are members of the Lotteries Council, Fundraising Regulator and the Chartered Institute of Fundraising and comply to the code practice requirements of these organisations. We are a Gambling Commission licensed operator, and to retain our license we work within a strict set of guidelines including the protection of vulnerable people and social responsibility.

We constantly monitor our lottery fundraising teams through Team Leaders and Managers to ensure they are delivering a great service and promoting the lottery in a positive manner. Feedback is constantly monitored, and a thorough complaints policy is in place. All canvassers will have completed a rigorous training programme before they can work and represent the charities and hospices, we promote the lotteries for.
